GENERAL INFORMATION

The extreme functionality of the SmartPack built into a compact portable dimming system. This small touring rack provides easy operation and reliability as well as quiet performance.

APPLICATIONS	Small to medium sized road shows
	Corporate or Ballroom events
	Portable dimming requirements in theatres or performance spaces
PERFORMANCE	Sturdy and reliable performance
	Versatile control via DMX-512
	Easy plug and play operation
FEATURES	Small compact design built to travel
	Room for 2 or 4 SmartPacks with choice of outputs
	Industrial grade road case with casters
	Front convenience outlets
	3/4-length rack slides for easy pack service/removal
	Cam-Lok power inputs
	Circuit breaker power distribution per pack
	User-selectable single phase/three phase
OPERATION	SmartLink enabled
	Variety of option panels
	Optional Main Circuit Breaker
	Optional Cam-Lok feed-thru panel

ORDERING INFORMATION

SmartPack Touring System

Model#	Description
2XSL620A	12 x 20A Touring System with Edison
2XSL620B	12 x 20A Touring System with Stage Pin
2XSL620C	12 x 20A Touring System with Twist-Lock®
2XSL620P	12 x 20A Touring System with PowerCon®
2XSL620V	12 x 20A Touring System with Multi-Pin
2XSL1210A	24 x 10A Touring System with Edison
2XSL1210B	24 x 10A Touring System with Stage Pin
2XSL1210P	24 x 10A Touring System with PowerCon®
2XSL1210V	24 x 10A Touring System with Multi-Pin
4XSL620A	24 x 20A Touring System with Edison
4XSL620B	24 x 20A Touring System with Stage Pin
4XSL620C	24 x 20A Touring System with Twist-Lock®
4XSL620P	24 x 20A Touring System with PowerCon®
4XSL620V	24 x 20A Touring System with Multi-Pin
4XSL1210A	48 x 10A Touring System with Edison
4XSL1210B	48 x 10A Touring System with Stage Pin
4XSL1210P	48 x 10A Touring System with PowerCon®
4XSL1210V	48 x 10A Touring System with Multi-Pin
1YRW-2XSL	1-Year Extended Warranty on 2-Pack
1YRW-4XSL	1-Year Extended Warranty on 4-Pack

Add **M** to the part number to indicate the Main Circuit Breaker option. For example, 2XSL1220B-M indicates a SmartPack touring system with two 12 x 10A SmartPack units with Stage Pin outputs and a 125A Main breaker.

Add **T** to the part number to indicate the Cam-Lok pass-thru option. For example, 2XSL1220B-T indicates a SmartPack Touring System with two 12 x 10A SmartPack units with Stage Pin outputs and the Cam-Lok Power Input with feed-thru panel.

Consult factory for alternate configurations.

SPECIFICATIONS

GENERAL
UL508A LISTED

1-Year Warranty Standard

DIMMER PACKS
Space for 2 or 4 SmartPack dimmer packs

Optically Isolated DMX512 input and pass-thru on individual packs (self-terminating)

Jumper cables provided to daisy-chain DMX

Tested and pre-configured at the factory

Menus set to English

DMX set for addresses 1-12, 1-24 or 1-48 depending on the model of touring rack

Output options based on rear output panels of individual packs:

Edison, Stage Pin, Twist-Lock®, PowerCon®, or 6-Circuit Multi-Pin

For more detailed information on SmartPacks, see SmartPack datasheet

MECHANICAL
2-pack system is in a 12 U case

4-pack system is in a 16 U case

ABS laminated 3/8" ply with aluminum-extruded edging and tongue-and-groove mating surfaces for lid

Removable front and back lids

Zinc plated hardware including ball corners

Butterfly twist latches

Spring loaded deep recessed handles

360° Swivel 3.5" casters, two braking and two non-braking, 250lb-rated

Equipment mounted to pre-drilled/threaded rack rail, with #10-32 hardened Phillips rack screws

3/4 – length rack slides from easy pack service/removal

POWER DISTRIBUTION
Cam-Lok E1016 Series input panel

Voltage Range from 85 – 140VAC, 47 – 63 Hz

Three phase power Indicators with test points

Circuit breaker per pack, rated at 60 amps allowing for 100% full load operation in single phase

All SmartPacks plug into power distro module via a flexible pigtail with connector - packs are interchangeable within the system

Power connector per pack has locking tabs to prevent them from coming out during transit

Convenience outlet panel standard - two Edison duplex outlets with a 20A fully rated magnetic circuit breaker

Option panels (Sensor Touring Rack style)

Optional 125A Main Circuit Breaker for 2-pack system, 250A MCB for 4-Pack system

Optional Cam-Lok feed-thru panel

THERMAL
Ambient operation temperature between 32°F (0°C) and 95°F (35°C)

Humidity between 30-95% (non-condensing)

Front-to-back cooling in packs for better airflow in a stacked application

PHYSICAL

2-Pack system weights approximately 200 lbs. (73 kg)

4-Pack system weights approximately 275 lbs. (125 kg)
