

Texas A & M University-Commerce Commerce, TX

Texas Scenic Company (TSC) has completed installation of stage equipment for the New Music Building on the Commerce, Texas campus of the Texas A & M University System.

Designed by BRW Architects of Dallas and Hammel Green and Abrahamson, Inc. of Minneapolis, the building sits at the campus main entrance and features a two-level, 550-seat performance hall and intimate 80-seat recital hall. Working with theatre con-

sultant Schuler Shook, TSC supplied stage equipment for several spaces.

The concert hall was outfitted with Inline® motorized acoustical curtains, ceiling reflectors and speaker hoists including motor controls with presets. TSC installed ETC Sensor AF Series dimming, an ETC EOS® control console, Unison architectural dimming and controls and theatrical lighting fixtures.

For the recital hall, TSC installed acoustical curtains and tracks, ETC SmartPack® dimmers, SmartFade® console and SmartLink® controls. A theatrical lighting package was also installed.

In addition to the two performance spaces, TSC supplied acoustical curtains and tracks for two rehearsal rooms and a choral hall.
